## **DETAILED ACTION**

### **INTERVIEW**

In view of the After Final amendment filed on December 10, 2004,  
PROSECUTION IS HEREBY REOPENED. As set forth below.

To avoid abandonment of the application, appellant must exercise one of the following two options:

(1) file a reply under 37 CFR 1.111 (if this Office action is non-final) or a reply under 37 CFR 1.113 (if this Office action is final); or,

(2) request reinstatement of the appeal.

If reinstatement of the appeal is requested, such request must be accompanied by a supplemental appeal brief, but no new amendments, affidavits (37 CFR 1.130, 1.131 or 1.132) or other evidence are permitted. See 37 CFR 1.193(b)(2).

As discussed in the interview on February 3, 2005 prosecution is reopened to address 112(1st) and 112 (2<sup>nd</sup>) issues.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1 – 13, 15 – 18 and 22 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a

way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. The term "candidate group" in claims 1-13 and 15 - 18 and 22 is not clear, which renders the claim indefinite. The term "candidate group" is not defined by the claim or specification and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention. Also, it is not clear how the claimed first and second comparisons are done. The claims and specification do not describe what elements are being compared.

In the remarks filed on December 10, 2004, applicant argues that the comparisons are each done with a single character. However, in the interview on February 3, 2005, applicant's representative stated that the comparisons may be made by using words, rather than single characters. There has been no definitive explanation of the claim regarding what a "candidate group" comprises (i.e. one or more characters) nor how the comparisons are made.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1 – 13, 15 – 18 and 22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Examiner does not know what is meant when "the selected character is included in a first candidate group of characters". Is the "selected character" a letter or word? What is meant by "performing a first comparison of the first

candidate group of characters to a storage of words"? How is this done? Is the comparison done with a "letter or a word"? How is the second comparison of a second candidate group of characters is done? What is meant by "stored words if and only if the first comparison is unsuccessful"? How are the stored words compared by "a letter or a word"? What is a "second group including a second character" consisted of? Also, what is considered to be a group of characters?

Since Examiner does not understand the claim language, no art can be applied.

### ***Response to Arguments***

Applicant's arguments with respect to claims 1 – 13, 15 – 18 and 22 have been considered but are moot in view of the new ground(s) of rejection.
